Assessment	Previous mark(s)	Current mark	Comment
Art	3m	4d	██████████ has made good progress so far in Art this year and he should be very proud of what he has achieved to date. ██████████'s practical skills have developed along with his ability to analyse and annotate his own work and that of others. ██████████ still struggles with impatience and can rush his work, for even more impressive results he should aim to slow down and not race to complete the task in hand to the detriment of the quality he can clearly achieve.
Cooking	2m	2m	██████████ has now completed his final assessment in cooking. He has some written work he needs to complete for his coursework and his final assessment.
English	4m	5d	██████████ has impressed me with his determination during most of the year. Only very occasionally will his effort dip but mostly, he is hardworking and committed. He is always polite, respectful and well-behaved. His writing has significantly improved over time and he could genuinely achieve a really high grade on this as long as he stays focused, reads the question, plans and paragraphs. With his reading, he needs to practice his exam skills on all the different styles of question. Century Tech has support on it for this. Perhaps he could complete some in the holiday. I will also support with this. Overall, ██████████ is an excellent young man who deserves to do well this summer. I wish him every success.
