

A Great Start to 2023

WELCOME BACK TO ALL STUDENTS! The term has got off to an excellent start.

Careers Advice

Kelly Wright (our Careers Advisor) and Emily Hardy from Entrust have met with a number of our Y11 students to go through their options for when they leave school. **We are all DETERMINED that every Y11 has a settled place for next year.** Students have responded really positively to the support that they have been offered.

SARAC

We have been delighted to welcome the SARAC team into school. They have worked with students on what **healthy relationships** (friendships and intimate) look like and the behaviour that they should expect from themselves and others. They have also shared with students the impact of violence (particularly sexual) and the importance of consent. **We were impressed with how maturely students coped with the serious and powerful presentations.** We welcome SARAC back next week for further work with students.

Assemblies

Our programme of Assemblies seeks to get students to reflect on their attitude and behaviour, and the world around them. This is to help them to become happier and better adults in the future.

Friday 6 January – New Year's Resolutions. What changes can you make to make your work, home and life safer, healthier and more successful?

Friday 13 January – Why is **RESPECT AND KINDNESS** important in our PRU? What are the challenges? What does it look like?

Friday 20 January – **Enrichment Day Celebration** – their purpose and why we are pleased with the students.

Curriculum Enrichment Days

On Thursday 19th January, students were able to take part in a variety of Enrichment Day activities aimed at broadening their experience. We hope to develop their life skills and give them the opportunity to enjoy learning beyond the classroom. Photos are below!

Over the next few months, students will be offered a variety of activities but this one included:

- Mountain Biking
- Orienteering
- Climbing
- A visit to a National Trust site
- The Chinese New Year and creating a Tree Sculpture

National Trust - Shugborough

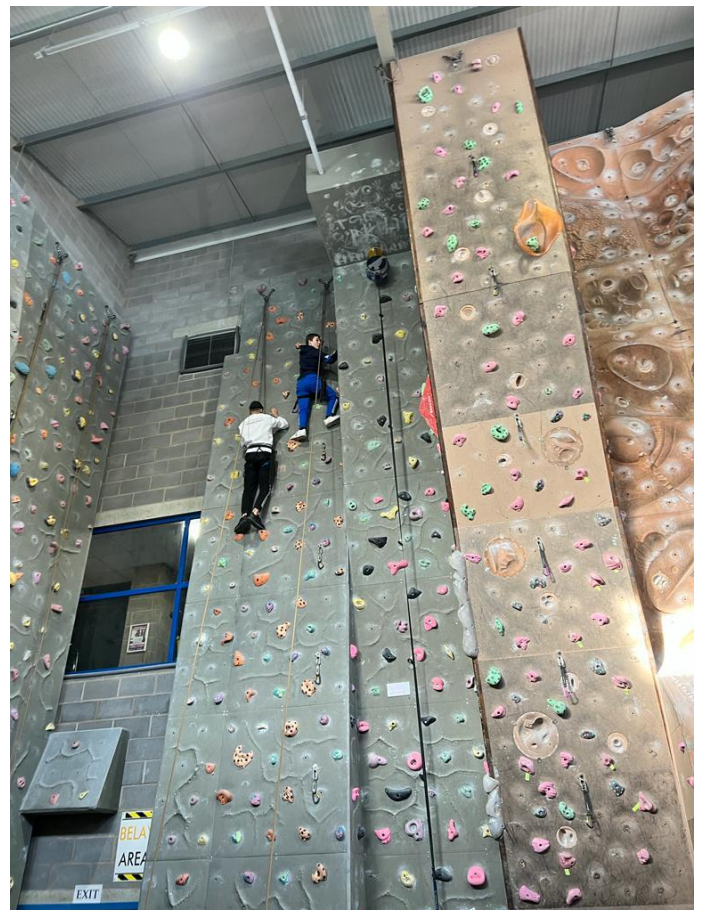

Orienteering on the Chase

Mountain Biking

Climbing

On Site

Creating a 3D Tree sculpture, welcoming students, staff and visitors to the school.... Currently being developed! Watch this space.
